

Litomerice Backcasting Scenario Workshop [1]

[2]

4 February 2015 - 2:15pm
Ecologic Institute

The backcasting scenario workshop was held in Litomerice on 2nd December 2014. Eight participants from local stakeholders developed scenarios how to reach the visions formulated during the previous POCACITO workshop.

The backcasting scenarios were developed for each of the vision topics. Participants tried to set interim target for reaching their visions, the actions and measures suggested vary from very concrete suggestion valid only in the city context to more general instruments applicable in other context as well.
