

[European Mobility Week 2014 Thematic Guidelines now available](#) [1]

[2]

19 June 2014 - 9:15am

European Commission, European Mobility Week

Providing a detailed overview of how quality of life can be improved through engaging in more sustainable mobility practices, the recently published Thematic Guidelines offer a wealth of information, statistics and inspirational examples of good practice across Europe and beyond.

The publication is a must-read for all interested in this year's theme, and those looking to improve their European Mobility Week campaigns.

Numerous activities are proposed for the week itself and Car-Free Day, in addition to links to further resources such as [Eltis](#) [3], the [CIVITAS Initiative](#) [4] and the [EMW Handbook](#) [5].

The Thematic Guidelines are updated and published annually by the EMW campaign to give campaigners fresh information regarding the year's theme and to provide information on new initiatives that aid cities in joining and successfully taking part in the campaign.

To download the Thematic Guidelines, [click here](#) [1.5mb].
