

POCACITO | 2ND STUDY TOUR AGENDA

DATE | TUESDAY, 18 – THURSDAY, 20 OCTOBER 2016

(ARRIVAL IN PARIS REQUESTED ON THE EVENING OF MONDAY 17)

LOCATION | PARIS, LOOS-EN-GOHELLE, BRUSSELS

PRESENTATION

The POCACITO project aims to facilitate the transition of EU cities to a sustainable or “post-carbon” economic and societal model in a global context. This outlook serves to assess the long-term trends and tensions in EU cities that impact urban development and to explore innovative approaches for achieving sustainable post-carbon cities in the EU, thereby contributing to the Roadmap for moving to a low-carbon economy in 2050 and supporting the EU Innovation Union flagship initiative.

The project comprises a series of workshops with local stakeholders in the case studies of Barcelona, Copenhagen/Malmö, Istanbul, Lisbon, Litomerice, Milan/Turin, Rostock and Zagreb. In addition, two study tours are planned during the course of the project (in 2015 and 2016) in several EU cities to facilitate an exchange ideas, experiences, best practices, and socio-economic success factors and limitations of implementing post-carbon solutions among city representatives. The study tours will bring together a group of twelve representatives from both EU and non-EU cities. The first 5-day study tour took place in June 2015, with visits in Croatia, Slovenia and Austria. (more info)

This second 3-day study tour, will be organised from 18 to 20 October, back-to-back to the final conference of the project (to be held in Brussels on 21st of October). Exploring the North of France and Belgium, participants will be given the opportunity to visit the European capital cities of **Paris** and **Brussels**, and the town of **Loos-en-Gohelle**.

The addressed topics will cover climate adaptation and mitigation, innovative urban greening, energy efficient renovation, brownfield rehabilitation, cooperation with citizen and local stakeholders, and the eco-transition of an old coal-field region.

Please be aware that all the meetings and visits will be done in English, without translation.
